**Address** — Alexandria , Egypt

## Objective

- Proficient Laravel developer with a strong background in creating robust and scalable web applications. Seeking to apply my expertise in PHP and Laravel to deliver impactful solutions and enhance team performance

## Experience

- **Food Park Website**  
Developed a comprehensive e-commerce platform with features including a dynamic menu builder, live chat, multi-payment gateway integration, and advanced product management systems.
- **Restful API for Virtual Lab**  
Created a RESTful API for a virtual lab application, supporting secure user authentication, experiment management, and real-time data processing.
- **Vacation Rental Hotel**  
Built a robust hotel booking system utilizing role-based access control, PayPal integration, and comprehensive booking management features.
- **Home Services Website**  
Designed a home services platform with functionalities for booking management, service reviews, and secure payment options.
- **Invoices System**  
Developed a debt collection system for banks, featuring complete invoice management, payment calculations, and role-based access control.

## Projects

### Food Park Website

Dec2023 - Apr 2025

*Laravel Backend Developer*

- Calculating System To handle Invoices Payments
- Using Yajra DataTables for viewing and developing models.
- Using Spatie Role-Permission For Controlling the access For Senstive Data
- Mail And Notification System
- Mail And Notification System
- Dashboard analytics

## **Education**

---

### **Beni Suef University (2020 - 2024)**

*Bachelor of Computer Science And AI*

*Minors: Information Technology*

*Grade: 2.86 (Very Good)*

### **Certifications**

- Udemy - Food Park Website (117.5 Hours)
- Udemy - - Vacation Rental (11.5 Hours)

## **Skills**

---

### **Technical Skills**

#### Languages

- PHP, JavaScript, SQL, HTML, CSS  
Frameworks
- Laravel, Bootstrap  
Databases
- MySQL  
Version Control
- Git, GitHub  
Tools
- Composer, Artisan, RESTful API development  
Other
- Problem-solving, Team collaboration, Agile methodologies

## **Language Skills**

### English

- Proficient (Listening: Advanced, Speaking: Intermediate)
- Able to understand and interpret complex spoken language with ease.
- Working on improving conversational fluency through regular practice and interaction.
